## Recommended Daily Intake 推荐使用量

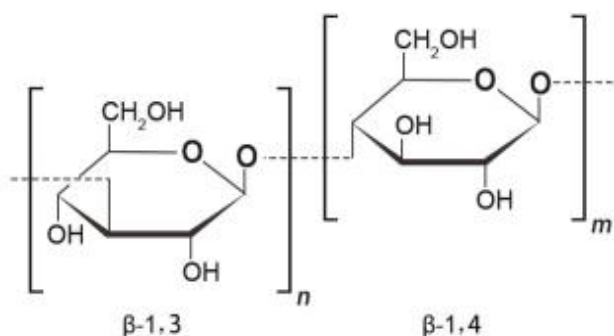

The FDA and European Union (EU) have authorized health claims based on a daily consumption of 3g of Oat Beta-D Glucan, the amount shown to significantly reduce total and LDL cholesterol levels. In most countries where a claim is allowed, the daily dose can be divided among three to four servings of food. The FDA authorized health claim requires a minimum of 0.75g per reference serving of food, for a daily intake of 3 grams.

FDA 和欧盟 (EU) 已经基于每天食用 3 克燕麦β- D 葡聚糖批准了健康声明，这一量被证明可以显著降低总胆固醇和低密度脂蛋白水平。在大多数国家，一种说法是允许的，每天的剂量可以分为三到四份食物。美国食品和药物管理局批准的健康声明要求，每一份参考食品中至少 0.75 克，即每天 3 克的摄入量。

## Description 描述

Oatcan™ Oat Beta-D Glucan is a soluble fiber derived from the oat's (*Avena sativa*) endosperm cell walls. It is a natural polymer comprised of individual glucose molecules that are linked together by a series of Beta-(1, 3) and Beta-(1, 4) linkages.

Oatcan™ 燕麦β-D 葡聚糖是一种可溶性纤维，来源于燕麦 (*Avena Sativa*) 胚乳细胞壁。它是一种由单个葡萄糖分子组成的天然聚合物，这些葡萄糖分子通过一系列 -(1,3) 和 -(1,4) 键连接在一起。
